DIAMOND CONTEST CLOSED WITH PLEASANT BANQUET

Bright Scene In Myers House Dining Room Last Evening--One Hundred And Thirty Present.

With a banquet at the Myers House last evening the Gazette diamond voting contest, which has engrossed the attention of the city and county for the past few weeks, was brought to a very pleasant close. The affair was given by the Gazette Printing and their guests and the judges of company in honor of the candidates election. The guests numbered a hundred and forty and after partaking of an elaborate repast listened to a series of interesting toasts.

Side Issues on Menu
It was at eight-thirty that the company was seated in the dining-room. They posed for a flashlight photograph for a few moments and the following menu, written with "side issues," was served:

Consomme in cups
Royal Neighbor flakes
Dill pickles. Crisp celery.
For the sour ones. For the nerves

Olives
For the grouchy.
Salted almonds
From Salt River.

During the feasting sweet music was discoursed by Lake's orchestra, which was seated in an alcove off the dining hall. The tables were decorated with red and white carnations.

Excellent Service

Special attention was given by the hotel management to the banquet and despite the fact that places had been ordered for a hundred and a hundred and forty were present this was quickly remedied and everything was conducted in an able manner, the banquet being most perfect in cuisine and service.

Postprandial Program

At the close of the serving City Treasurer James A. Fathers rapped for order and opened the postprandial program. He said in part: We are here this evening to celebrate the closing of one of the greatest contests ever held in this city. It was one of the greatest undertakings with very great results that I have any knowledge of. Five weeks ago when it was inaugurated hardly a rifle was created and there were those who thought possibly a few thousand votes might be cast for some candidates. But interest was awakened and nearly 700,000 ballots were polled. There were many contestants, but, of course, only four could win. For these the Gazette offered beautiful prizes.

Prizes Presented

"Of course you all know," Mr. Fathers continued, "who have won these trophies. The ladies' diamond has gone to one who has won by her own popularity with the public and the popularity of two corps which have worked energetically for her. These are the Women's Relief Corps and the local post of the Grand Army of the Republic, which order is probably revered above all others by the people and which in its last days now may have almost anything it asks for. To you, Miss Willis, I present this ring and hope that you will proudly wear it as a reminder of this very pleasant contest and event." In response, Miss Willis expressed her appreciation and thanks and said: "It is not for the intrinsic value of this ring that I prize it, but rather for the manner in which it was given. I fully recognize the honor placed upon me and in saying a few words on 'The Lady Candidates' I voice the pleasure which all have taken in the race. I was surprised to receive the diamond ring for I did not believe I would secure it but was working rather for the flag. The other contestants are my friends and I am not as happy today as if they had won. From this contest pleasant memories will always remain with me."

Gave Thanks to All

Toastmaster Fathers then presented the gentlemen's diamond ring to Mr. Connors, calling him "a very large majority" won on the popularity of himself and the order—Knights of Columbus—which he represented. This order is one of the youngest in Wisconsin, but has grown to be one of the strongest socially. Mr. Connors said he was unprepared to talk on "The Gentleman Candidates," but could surely thank all his friends and particularly those in the Knights of Columbus. He was greatly pleased with the support given him and his one regret was that the contest was closed, for it was the best spring tonic ever placed upon the market. When he opened his campaign he was suffering with a cold, but he put away his bottles of medicine and began work, and never felt better in his life than at present. For this tonic thanks were given to Mr. Burke, who conducted the contest, and Mr. Bliss and his assistants.

Old Glories Presented

In presenting the gentlemen's flag the toastmaster termed Mr. E. O. Smith a possible diamond winner whom fate had marked to carry off the second prize. Mr. Fathers said Mr. Smith was possessed of a host of friends young and old and represented one of Janesville's progressive business firms—the Smith Drug company, which had endeavored to make the people believe that Rocky Mountain Tea, Rexal Tablets and Smith's Kodaks would cure all ills. Mr. Smith expressed himself highly pleased to accept the flag. He said Mr. Spicer was responsible for his entrance into the race and he wished to thank Mr. Spicer and all his friends for their services. Mr. Fathers presented the ladies' flag to Mrs. Mason, saying that the winner had received a very flattering vote and by 87,000 ballots or more had placed at her disposal this old glory. Mrs. Mason responded with these words: "Do you take the Gazette?" She said this was the sentence that gave her second place and she was very much pleased with the award. "Mr. Smith and myself," she continued, "will not, like Mr. Connors and Miss Willis, have to fear that robbers will take our valuable gems if we leave them at home or be compelled to wear our best bits and tuckers to match the diamonds when they are worn. I was proud to represent such a worthy order as the Royal Neighbors and wish to thank my friends in that organization, those who assisted me from among the Woodmen, and all others from the Odd Fellows auxiliary order, from the church to which I belong, and from the general public. In accepting the flag and thanking Mr. Burke and the Gazette Mrs. Mason closed with a verse from a poem entitled "Old Glory," which she composed at the close of the Spanish-American war:

"Where e'er Old Glory leads they'll go,
Ben down to the cannon's mouth—
The boys of the North we love so well,
The boys of the Sunny South."

"Winners" and "Losers"

Resuming the program of toasts Mr. Fathers reminded his hearers that in every contest, political or otherwise, there were winners and losers. To toast the winners he called upon a political winner, Mayor J. F. Hutchinson. Mr. Hutchinson said he was much pleased to receive this postprandial duty, though it had not been assigned him until a few hours previous to the banquet. "No contest," he stated, "has received such attention and been universally interesting to the community and city as had this diamond contest. Though the winners will cherish their trophies they will take more satisfaction in the fact that this race evidenced to them the number and truthfulness of their friends. The Gazette is entitled to congratulations for inaugurating and conducting such a contest." A. P. Burnham, one of the judges, was called upon to speak to the "losers." In this topic, he said, he found a rather difficult duty, for consolation was hard to give. Duty, Mr. Burnham was to have spoken, but he believed Mr. Hayes had shirked his duty in counting ballots he had raised an objection and secured the place. The only loser he could find now was Mr. Hayes. For every one about him, and among them the candidates who did not win prizes, seemed happy. Mr. Burnham closed, wishing the contestants God-speed in all other races in which they participated and in the contest of life.

Advantages with Paper

H. H. Bliss spoke on "Advantages of the Contest." Mr. Fathers in his introduction said that the many subscribers were among those to receive advantages of the contest were plainly with the paper; that prestige, which they cannot buy, had been secured and widened and though expenses were heavy these were overbalanced greatly by the prestige gained. Mr. Fathers remarked that the paper, by these expenditures, had shown that it was not afraid to advertise, living up to the policy it advocated.

"The Bright Side"

D. W. Hayes was introduced to speak of "The Bright Side." The toastmaster said everything was bright and there was no dark side; Mr. Hayes said, through the sage advice of Mr. Burnham, whom he appealed to in all cases as a court of last resort, and who fully lived up to that part in manner and ability, that he had been responsible for bringing out one of the successful candidates, Mr. Connors. The remarks made a clever reply to Mr. Burnham and truly represented the brightness of the contest and the "closing scene." This closed the program previously arranged, but the toastmaster called upon F. H. Burke, "who did most of the work." The latter excused himself for his self-claimed inability to make a speech and then told of the great pleasure he had derived from his work among Janesville and Rock county people. "It was also a pleasure," he continued, "to represent a paper so generally well thought of. The conditions he found were remarkable. Between Milton and Janesville, a distance of ten miles, he found on a drive through that district that but two homes were not receiving the paper. Similar conditions existed elsewhere and never in all of his experience had he found a paper covering its field as thoroughly as did the Gazette.

Thanks Proposed

Toastmaster Fathers, in behalf of the guests, then sincerely thanked the Gazette and Mr. Burke for the banquet and contest. Mr. Burnham called upon H. F. Bliss, as the father of the Gazette. He responded expressing the appreciation of the paper for the compliment paid it by the universal interest taken in the contest. Others were then given an opportunity to make a few remarks. M. Raby said he wanted to second the motion of thanks for the spring tonic. He had moved in from the farm this spring and naturally felt blue, away from old associations. But when the contest was opened he entered into it to help some candidates—one of these was Miss Willis—and he had surely forgotten all about the blues.

ANTI-CIGARETTE BILLS TO FAIL

NEW MEASURE TO TAX "PAPERS" INTRODUCED.

BY REPRESENTATIVE WATSON

One Cent Per Hundred Wrappers the Proposed Levy—Other Bill Prohibits Importation.

[SPECIAL TO THE GAZETTE.]

Washington, D. C., April 17.—Following the introduction of a bill prohibiting the importation of cigarettes or the making thereof into a state prohibiting the sale and consumption of the same, Representative Watson has presented a measure seeking to place a tax on cigarette paper. It may be said that these bills have not the slightest chance of passing at this session, and probably never will pass.

Mr. Watson's latest idea on the cigarette proposition is a bill styled "To provide a tax on cigarette paper," and is quite lengthy, consisting of eleven sections. It proposes that on and after July 1, 1906, there shall be levied and collected on each book, package or bundle of cigarette paper or wrappers a tax at the rate of one cent per hundred wrappers or leaves or fraction thereof contained in any such book of cigarette paper, manufactured, sold, removed or given away. This tax is to be paid by means of adhesive stamps, and the Commissioner of Internal Revenue is to be given full power and authority to make regulations necessary to carry into effect the provisions of the bill.

The commissioner will also make regulations as to the dies and adhesive stamps to be affixed to the cigarette books. Section 1 further provides that the act shall apply only to such cigarette paper as is intended to be used by persons in making their own cigarettes for smoking and not to the paper used in wrapping manufactured cigarettes.

Section 2 provides that the tax on the cigarette paper shall be paid by the manufacturer thereof and defines who shall be termed a manufacturer in the following language:

"Every person who offers or exposes for sale cigarette paper or wrappers, whether the cigarette paper or wrappers so offered or exposed are of foreign manufacture and imported or are of domestic manufacture, shall be deemed the manufacturer thereof and subject to all the duties, liabilities, and penalties imposed by law in regard to the sale of domestic cigarette paper or wrappers without the use of the proper stamps denoting the tax paid thereon; and all such cigarette paper or wrappers of foreign manufacture shall, in addition to the import duties imposed on the same, be subject to the stamp tax prescribed in this act."

Section 3 provides that the person affixing the stamps shall write thereon the initials of his name and the date on which such stamp is attached or used, so that it may not again be used. Any person fraudulently using these stamps to denote any tax imposed by the act without effectually canceling and obligating such stamp shall forfeit the sum of fifty dollars.

It is provided in section 4 that every manufacturer of cigarette paper shall register with the collector of the district his name or style, place of residence, etc., and a failure to register shall subject him to a penalty of fifty dollars. Section 5 directs the Commissioner of Internal Revenue to prepare and supply to the collectors at least a one month's supply of the stamps necessary to conform to the act and section 6 fixes a penalty of \$1,000 or imprisonment to hard labor for not exceeding five years or both, at the discretion of the court, for violation of the act in the re-using of stamps once affixed or the counterfeiting of the stamps.

Section 7 provides: That whenever any person makes, prepares, and sells or removes for consumption or sale cigarette paper, whether of domestic manufacture or imported, upon which a tax is imposed, by law, without affixing thereto an adhesive stamp denoting the tax before mentioned, he shall incur a penalty of fifty dollars for every omission to affix such stamp; provided, that cigarette paper may be removed from the place of manufacture for export to a foreign country without payment of tax or affixing stamps thereto under such regulations and the filing of such bonds as the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury, may prescribe.

In section 9 it is provided that every maker or manufacturer of cigarette paper who, to evade the tax, sells or delivers any cigarette paper before the duty thereon has been fully paid or who conceals, removes or deposits any such article or commodity, shall be subject to a penalty of fifty dollars, together with the forfeiture of any such article or commodity.

Section ten provides that whenever any article on which a tax is required to be paid by means of a stamp, is sold by the manufacturer thereof, without the use of the proper stamp, in addition to the penalties imposed by law for such sale or removal, it shall be the duty of the Commissioner of Internal Revenue, within not more than two years after such transaction, to estimate the amount of tax which has been omitted to be paid and to make assessment thereon upon the manufacturer or producer of such article. He shall certify such assessment to the collector who shall demand payment and on neglect or refusal of payment shall proceed to collect in the manner provided for the collection of other assessed taxes.

POPULATING THE GREAT PLAINS

GOVERNMENT TO PUMP THE ARKANSAS UNDERFLOW.

THE GAGDEN CITY PROJECT

Seven Hundred Thousand Square Miles Are Comprised in Region Known As the Great Plains.

(By Guy Elliott Mitchell.)

The very mention of home building in western Kansas and Nebraska will call up painful recollections today in more than one household in New England. The disastrous attempts of years back to inhabit and farm these semi-desert prairies lands much interest to the first government irrigation works to be located in the Great Plains region—the Garden City project. Contracts will be let in May and the work will doubtless be completed in time for irrigation in the spring of 1907.

Unusual interest attaches to this project not alone because it is the first which involves pumping from underground sources but because it is believed that its successful operation will usher in a new era for the Great Plains. The importance of this project is more fully realized when it is remembered that the division of the United States known as the Great Plains comprises 700,000 square miles or over one-quarter of the total area of the whole country. Over a vast portion of this region the settlers are few and far apart. It is the "short-grass" country and is today furnished forage and grazing for great herds and flocks. West of this 100th meridian the climate belongs to the semi-arid region and general farming without irrigation is not successful except in years of unusual and timely rainfall. The history of this section has been marked by a number of disastrous failures, most of which resulted from a lack of knowledge of the climatic oscillation and from a fever of speculation in western mortgages.

East Was Bunkoed.

During a cycle of wet years agriculture was extended far across the plains, the movement being greatly facilitated by companies formed to place loans and take mortgages on real estate. During the continuance of several years of ample rainfall the profits of these loan agencies were great and prudence was thrown to the winds. A series of dry years and the consequent failure of crops forced the settlers to abandon their farms and whole counties were depopulated. Today here and there on the plains the deserted sod house or the more substantial farm dwelling are framed against a level landscape. Lonesome reminders of the pioneers' failure. Occasionally the remains of dozens of structures mark the site of what was once a prosperous town or county seat but what is now only the haunt of the coyote or the gaunt gray wolf. Mortgages were foreclosed and the makers of loans became burdened with large areas of lands practically valueless. Attempts were made to construct irrigation works to insure crops but the results as a rule were not successful and the stockholders lost their investment.

Windmills Saved Day.

Some of the pioneers tenaciously hung on to their homes and when the ditches failed they sunk wells and irrigated small tracts from windmills. The yields from these small ditches were phenomenal and sufficed to tide many of the farmers over the years of drought. Farms of 10 and 20 acres in gardens and orchards and irrigated from wells now support whole families in comfort. Systematic irrigation of this kind not only embraces intensive cultivation, small farms and orchards, but it increases and specializes production, calling into play the educated brain and the trained hand and massing the cultivators into highly organized communities.

The well in Kansas has been a most potent factor in establishing a number of the best communities in the state. These facts are recited to explain why the Garden City project is attracting a public interest greater than would follow the construction of a project of this kind in other sections of the west. The water for this project must be recovered from the underflow waters of the Arkansas Valley, which lie in gravel deposits existing below the bed of the river. The plans of the government provide for the sinking of several hundred wells from which the water will be pumped and discharged into a collecting conduit. These wells will be scattered along a line nearly five miles long.

Big Pumping Plant.

The power is generated at a single central plant situated on the railroad, and is then distributed by electricity to the wells.

Applications for water under this project have been made by the owners of more than 12,000 acres of land to be benefited and the community is very enthusiastic concerning the future success of irrigation in the Arkansas Valley. One private pumping plant erected three years ago in this neighborhood at a cost of more than \$8,000 supplied water to 1,000 acres in wheat. The first crop harvested was sold for more than the original cost of the pumping plant.

Famous for Alfalfa.

The Garden City country has long been famous as an alfalfa center and location seems to be especially well adapted to the maturing of the seed crop of alfalfa which has always paid well there. Garden City alfalfa seed brings a high price all over the irrigated west.

A sugar factory is now being constructed at this point and a considerable acreage has been promised to the factory which will be planted in sugar beets as soon as the project is completed.

The important bearing which the success of the project has upon the future of millions of acres of the Great Plains is thoroughly appreciated by the landowners. Vast areas are still the property of the railroads and they are giving careful attention to the subject. When the development of numberless pumping plants along the broad valleys of the plains' streams and the extension of successful dry farming over areas on higher levels the Great Plains region will

Dowie may make those residents of

Zion City who have deserted his

standard take to their cyclone cellars

but he seems to have lost the psycho-

logical moment for doing so.

The yellow tramp dog that inhabits

the streets of the business section of

the city lives like a lord as far as food

goes although he does choose cold

spots to sleep in.

There is still much to be said in

favor of clean streets, paved or mac-

adam. It is a poor policy to save money

on streets and thus present a bad

appearance to strangers who visit the

city.

There is no doubt but La Follette

is backing Lenroot for the gubern-

atorial nomination. Will he be able to

designate who shall wear his mantle

or not is the question that bothers

the other aspirants.

We hear much about the Americans

who go to Europe and make their

homes there repudiating the United

States but not so much about the

thousands of natives of these foreign

countries who come to America and

democrats win the House half the bat-

tle of 1908 will be won. It is not

going to be a tidal wave year, and

therefore every republican should be

on guard and see to it that there is

no lowering of the flag.

FOR CONGRESSMAN.

We will soon be in the midst of a

congressional campaign that promises

to be both warm and interesting.

Janesville is particularly interested

owing to the fact that M. G. Jeffris

is one of the aspirants for the repub-

lican nomination. Everyone in Rock

county knows Mr. Jeffris and his sup-

port here is expected to be unanimous.

The Milwaukee Journal recently ad-

ded ginger to the contest by advising

its democratic readers in the first

congressional district to nominate

Peter J. Mouat, editor of the only

democratic daily in the district. If

this is to be followed out Janesville

will certainly be the seat of war for

both parties.

The Chronicle's List.

Of course, the Chicago Chronicle

has a list of the "muck rakers" as

referred to in the speech of President

Roosevelt last Saturday which it pub-

lishes for the benefit of its readers.

The list of alleged "muck rakers" is

appended below so that the Gazette

readers may see whom the Chronicle

deems worthy of this title:

"Most people do not have a list of

the 'muck rakers' at hand. Their

names are: William R. Hearst, Ar-

thur Brisbane, Ray Stannard Baker,

Lincoln Steffens, Henry Beach Need-

ham, David Graham Phillips and Up-

ton Sinclair. Of these the most ar-

tistic liar and blower is Lincoln

Steffens. The others are mere ini-

tiators."

THE LAME DUCK.

When Senator Bailey made his

speech on the railroad rate bill in the

United States senate the other day the

Milwaukee Free Press took occasion,

through the channels of its Wash-

ington correspondent, to announce to

the reading public that Senator Spoon-

er was utterly humiliated and crushed

by the mouthy Texan. The state-

ment was taken up by the press of

the state generally and the action of

the prejudiced Free Press condemned

in the harshest of terms. Among the

papers to so condemn its action was

the Germania of Milwaukee, the

leading German paper in the west. The

Free Press retaliated and suggested

that the editors of the Germania read

the accounts of the speech and al-

leged humiliation of Senator Spooner

in other papers before passing judg-

ment. Accepting the challenge to

compare its Washington report of the

Bailey rate bill speech with those of

other leading papers in the country,

Die Germania in its last evening's is-

sue answers the anonymous organ as

follows:

"The Free Press challenges us to

read the Washington correspondence

of leading papers, but especially that

of the New York Times, to convince

ourselves that the Washington rep-

resentative of the Free Press in his

report of the speech which Senator

Bailey recently made in opposition to

Senator Spooner, did not say a word

too much. We have read the reports

referred to and have gained the con-

viction that we have not in the least

On Sharing Seeds With Birds.

Chicago News: An Austin man who

planted a fresh garden found fifty

blackbirds merrily chattering their

thanks next morning as they scratched

up the ground for the seed. A man

must have a temper like the one

Dowie never had if he would raise

a garden and keep sweet.

It's the Enemy's Country Now.

Appleton Post: Dave Rose declares

that after a couple of months to be

spent in Arizona in looking after his

mining interests, he will return to

Milwaukee and make it his home as

long as he lives on earth. Still Dave

must regard that city as a part of

"the enemy's country" hereafter.

Original Chauffeurs Were Bandits.

Exchange: Paris Figaro says that

the word "chauffeur" had its origin in

1795, when disguised bandits entered

houses and garreted their victims, or

toasted their feet before the open

fire to make them tell the whereabouts

of their valuables. They were the

original "scorchers."

Painful Revelation.

Milwaukee Journal: It pains us

to learn that in the La Follette coun-

ties the wolf bounty industry has

been exploited by the importation of

dried skins from Minnesota. Wiscon-

sin wolves appear to be too swift

for these reform hunters.

Gorky Doctrine Exemplified.

Chicago Chronicle: If reports be

true Comrade Maxim Gorky not only

preaches socialism but carries it to

its ultimate and inevitable result in

practice—that is, to say, he is not

married to the person known as Mme.

Gorky, who accompanies him on his

present tour.

Little Sympathy For Either Side.

Chicago News: If the faithful are

not careful the scoffers in the out-

side world will look on the con-

trover between Dowie and those who

were cocksure he was infallible just

a few weeks ago as a parallel to the

justly celebrated passage at arms

between the pot and the kettle.

Big Subjects Have Pestered Out.

Madison Journal: A full in politics

and editors are writing laborious

theses on trade conditions, immigra-

tion, prospective mineral famines

and other ponderous or fantastic

themes. Even Vesivious, Dr. Dowie

and John Mitchell threaten to peter

out as timely subjects for jokes and

comments.

Hear! Hear!

Winneconne Local: If Idaho hangs

the leaders of the Western Federation

of Miners, which now seems to be a

foregone conclusion, it will be done

without regard for law or legal

procedure and will be the preface to

America's Leading Touring Car

The Season of 1905 demonstrated the unquestioned position of

The CADILLAC

as America's Leading Motor Car, a position which would have been impossible
of attainment except as the result of Merit, Dependability and Satisfaction. The
output of the Cadillac factory last year was double the output of their nearest
competitor and there is nothing artificial about this success. It is the result of
building cars so perfect in construction that they cannot get out of order, so
simple in construction that anyone can operate them, so powerful that they will
climb any hill and run as fast as anyone ought to ride, so dependable that you
don't have to worry about getting home.The first cost is the big item in buying a Cadillac. But after its paid for,
you are done. No repairs, half cent per mile for gasoline, and small deprecia-
tion. For the business man, for the physician, for any man who values his
time, they will soon save their cost.

"I came to you, Dr. Richards, because they tell me YOU DO NOT HURT," said an Evansville lady the other day in Dr. Richards' dental office.

"I want my teeth filled and I don't want to be hurt. Now, if you hurt me I shall not be able to recommend you to others."

Dr. Richards undertook to do the work painlessly, and when she left for her home, she said:

"You are all right, Dr. Richards. I never had a dentist before who did my work so CAREFULLY and so PAINLESSLY."

This little incident is just one of dozens like it occurring daily in his practice.

People seem to appreciate the kind of service he gives them.

TWILIGHT CLUB'S LADIES' EVENING

IT CLOSED THE TENTH YEAR OF THE ORGANIZATION.

TALKED ON JANESVILLE

Many Ideas as to Past, Present and Future Are Given by the Speakers of the Evening.

"Here's to our home, and here's to our club, but not to the home where the club waits the hub."

Each closing night of the Twilight Club's meetings is, always, considered the best. Whether it is because each year the closing night is characterized by the presence of the ladies or whether the presence of the ladies stimulates the speakers to do their best remains yet to be solved, but the fact remains the Ladies' night of the club is always the most enjoyable.

Last evening two hundred and seventy-five members of the club, invited guests and "the ladies" enjoyed a bounteous repast at the last club supper for the year, heard sweet music from the Orpheus mandolin orchestra and heard words of light from the lips of the speakers.

Beautiful decorations of carnations, palms and electric lights made the scene one of splendor, and with the three long tables loaded with good things to satisfy the inner cravings, dainty Misses to serve them, the postprandial effects were most gratifying.

Janesville to the Fore

Judge Charles Pfeiffer was the leader of the evening. He introduced the speakers in a few well-chosen words, told good stories and played the part of toastmaster as it has seldom been played. The tiny quotation that followed his name on the program gave him his excuse for action that followed his name on the program gave him his excuse for action.

"Obliged by hunger and request of friends," Pope, Sam Smith, "O my prophetic soul," Shakespeare, was the first speaker of the evening.

His subject being "Janesville Twenty-five Years Hence," Mr. Smith called into play blank verse and the music of prophecy. "He saw smooth asphaltum streets with many street-cars running to all parts of the country."

The Janesville Union-Traction Company was a reality, not a dream. In a dainty park on the Corn Exchange stood a statue to the memory of the man who made this possible—"Black Jack" George (Parker), The Smelter King.

Matheson was serving his fourth term as Mayor and William Henry Harrison Macdon was at last alderman from the fourth and delighted in arguing with City Attorney Ringer. All-day bridge whist was played on open cars chartered by the ladies from T. S. Nolan, president of the traction company, and as the cars whizzed along large buildings of Parker and Palmer, Bostwick and others were described. The courthouse was missing—moved to Jefferson some twenty years before. In Spring Brook I. F. Wortendyke had started a clock factory, having had his head cut off by the gas company because he gave the people seventy-five-cent gas. Prof. Buell was president of the University.

"Mac" Jeffries, senior senator of the state and right-hand man of President La Follette, will Wheeler, his attorney general. Judge Pfeiffer, chief justice of the state and Senator Whitehead an Ex-governor was well received and the hits both timely and good.

Highways and Byways

Ira F. Wortendyke, the Isaac Walton of Janesville, then gave a neat little paper on "The Highways and Byways." Mr. Wortendyke knows the beauties of nature and the beauty spots that surround Janesville were described and a plea made for their study by the people. Out-of-door life was advocated, trips to the surrounding country advised and the blessings of nature explained. Mr. Wortendyke made a plea for the clean banks of the river, for clean streets, for the improvement and betterment of the conditions of the city. He said: "Find a person who loves nature in all her moods and you will find one whom you can trust, one to whom you may go, sure of sympathy in trouble and one who will enlarge your pleasures."

In enjoying nature Mr. Wortendyke advocates the use of a horse and buggy in preference to an automobile. Remembering his own fate on an auto trip he becomes pessimistic of the "machine," and says that riding along the roads or waiting until repairs can be made so the expense of a heavy bill to haul you back to town in the cold gray dawn of the morning after can be saved.

Ogden H. Fethers

Mr. Fethers had for his subject "The Cause of the Decline of Poetry in Janesville." In opening Mr. Fethers was not sure there had been any decline in Janesville. He explained poetry to be the imagination of the soul and did not believe it had been going down hill. He gave notable examples of poetry written by Janesville authors, taking as the leading exponent Abbie Ford's "Lack of Love." This he read in full, making side notations which hit certain bachelors, and making it most amusing. Bill Baxter's poetry was also a type of verse touched upon by the speaker and one of the choice selections of this unknown author was given to illustrate what was meant. In conclusion Mr. Fethers expressed his opinion that poetry had not declined in Janesville, that it was really in the springtime of its life, just budding into the beautiful summer life.

William Smith

Just before Mr. Smith gave his talk on "Reminiscences of Professional and Political Life in Janesville," A. G. Wilson of Beloit gave a delightful selection of vocal music. He was accorded and responded gracefully. Mr. Smith's talk was given on the program as "How stark is Shakespeare," and under the name of "Shakespeare," under the name of Longfellow, "The Smith might man is he." Mr. Smith is a most enjoyable speaker, replete with stories of incidents and actual occurrences in the past life of the city. He

gave a pleasing talk which was interspersed with bits of wit and charming satire. He was followed by Otto Oestreich, who spoke on "Mine and Thine."

Otto Oestreich

"I would help others out of friendship," Burton, explained Mr. Oestreich's toast and a little quotation from Beaumont and Fletcher—"I am a mortal man again; a lawyer," explained his profession. Mr. Oestreich said he hoped the day dreams of the Plattville mining district might become a reality and told stories illustrating his text of mine and thine. He defined the two terms as "mine" to be expressive of the fundamental instinct of self and "thine" the fundamental instinct of justice. On these two definitions he explained the war with Spain and other national events. He made two senses responsible for the series of investigations in insurance and Standard Oil and said they were the fundamental principles of all society and of our national life.

Rev. J. W. Laughlin

Rev. J. W. Laughlin closed the evening with a talk on "Sugar Beets Tobacco." It was really the address of welcome to the ladies as guests of the club and was filled with toasts to the ladies, toasts of every description and was a fitting close to the most enjoyable entertainment of the club ever given on Ladies' night. He explained his topic as: Men chew tobacco; ladies eat sugar; hence sugar beats tobacco.

Society..

In an artificial moonlight glow produced by myriads of Japanese lanterns and colored lamps a large company of dancers made merry at Assembly hall last evening.

The second party given by Janesville Chapter No. 28 of the Order of the Eastern Star during the present year proved most enjoyable, if possible, than the first one. All of the elaborate decorative effects used by the Unique Club on the previous evening were left intact and the subdued light during the early part of the evening, with its vague suggestion of romance, lent added charm to the scene. Later on the white lamps were permitted to blaze and Knott & Hatch's orchestra played a series of waltzes and old folks' quadrilles which proved very enjoyable.

A novel feature of the evening was the introduction of a so-called "Butt-in-ski" two step. This was not a Russian importation, as the name might indicate, but a dance wherein each gentleman was compelled to forsake his partner and find a new one when touched on the shoulder by any one of the coterie of the unprovided-for who dodged in and out among the couples. Ice cream and cake were served in the balcony, the groups to the tiny bows of colored ribbon presented at the door. The festivities concluded at one o'clock. Mrs. Mae Tanberg, Mrs. Mae Smiley, C. V. Kerch and B. F. Carle had charge of the arrangements. The floor committee was composed of J. R. Whiffen, T. H. Howe, Stankley Hutchinson, J. P. Thorne, E. T. Fish, and G. H. Drummond.

Owing to an inexplicable oversight mention of the notable seventh annual ball given by the Unique Club on Easter Monday night was omitted in the Gazette of yesterday. Nearly two hundred couples had gathered at Assembly hall when Knott & Hatch's orchestra of seven pieces, almost concealed from view in the bower of greens created for them in the south end of the ball-room, played the opening waltz. The decorations and appointments were on a scale of magnificence seldom attempted for an entertainment of one evening's duration. Curtains of a warm Turkish red had been hung above the balcony rail. Minute gardens with ornamental lamps flanking the gateways, lattice-work arches, cozy corners created by the lavish use of beautiful rugs and furniture, palms, and potted plants, and a multitude of mirrors hung on the side wall, all contributed their part to the fairy scene. Above the heads of the dancers great streamers of Southern smilax, from which depended myriads of pink caryophyllums, radiated in every direction. The entire decorative scheme was in charge of Edward Amerphol and a corps of assistants and their work was remarkably well done. The festivities closed at one o'clock in the morning. Charles Strickler, Joseph Flaherty, Morris Dalton, William Fagen, and Albert Coyne were in charge of the general arrangements.

At the home of George Scarcliff, 158 South Franklin street, Monday evening, a company of young people participated in a very pleasant little surprise party given in honor of Laurence Sanborn's nineteenth birthday anniversary. The evening was devoted to games and musical numbers by the Waverly Mandolin club and a very tempting luncheon was served at eleven o'clock. Before departing the guests, through their spokesmen, Jerome Davis, presented Mr. Sanborn with a handsome pair of gold cuff buttons. Besides Mrs. Scarcliff who assisted in arranging the entertainment, there were present: the Misses Smith, Proctor, Gertrude Lake, Effie Jones, Gladys Brown, Vera Lynt, and Clara Scarcliff; the Messrs. Miller, Sanborn, Rollo Dobson, Rexford Brown, Jerome Davis, Bert Hutchinson, and Ben Jackman.

Miss Mabel M. Williams, daughter of Mrs. Emma Williams, who resides at No. 3 Locust street, and George C. Kerrin of Beloit are to be married at Rockford this evening. Rev. H. L. Martin of the 1st Methodist church officiating. The groom-to-be is the only son of Mrs. Hugh Kerrin of Beloit and has been in the employ of the George H. Cram shoe store for several years past. Both young people have a host of friends in the two cities who will extend their heartiest congratulations.

Harry B. Ranous was the host of the Trinity church choir boys Monday and Tuesday evening. On Monday evening he entertained the younger members and last evening the older.

Miss Mabel Williams and George Perrin were married at the Nelson Hotel in Rockford at 3:30 o'clock this afternoon.

Mrs. Frank Baack entertained a company of friends at cards at her home on Wisconsin street last evening.

Oscar Rowe and family expect to move into their cottage at Lake Koshong for the summer, during the early part of next week.

Miss Blanche Sweeney is spending the day in Chicago. Mrs. T. P. Sweeney is expected home from Florida next week.

The Misses Buretta Kimball and Ella Sutherland returned to Madison yesterday to resume their work in the university.

The Misses Elisabeth McKay and Irma Keller have resumed their studies at Madison.

Serious Charge Dismissed: After an examination conducted by District Attorney Fisher at Beloit yesterday the charge of assault with intent to do great bodily injury, preferred against Joseph Ralph, Charles Pollock, and William Ralph, was dismissed and that of simple assault substituted. In a row Saturday evening someone fired a gun, but it is now thought that it was the enraged householder in front of whose premises the melee was going on.

TERRIBLE DEATH LAST EVENING

E. RAY SMITH KILLED AT BROOKLYN ABOUT TEN.

HIT BY VESTIBULED TRAIN

Was Braking on North-Western Road, Coming to Janesville—Every Bone in Body Broken.

E. Ray Smith of this city was killed on the tracks at Brooklyn last night. He was braking with Conductor Conc, being en route from Baraboo to Janesville. At Brooklyn the train stopped to switch out a few cars and as Smith crossed the parallel tracks to go to the depot to mail some orders he was struck, it is supposed, by the vestibuled train which passed through here at 9:20 o'clock from Chicago to St. Paul. It was not known by the train crew that he had been hit and first knowledge of the fatal accident was gained when the terribly mangled body was found ten feet from the rails by some country boys, who were going to a dance. This was about 10:20 o'clock and the watch on his body had stopped at 10:00. There was not a bone in his body that was not broken and death was surely instantaneous. Mr. Smith was well known in the city and leaves three small children. His wife, formerly Miss May Walsh of this city, died very suddenly several months ago. Mrs. Joe Scholer and Mrs. Ed Hemming are sisters-in-law of Mr. Smith. The remains are at Brooklyn. No arrangements for the funeral will be made until the deceased's mother, now in the northern part of the state, is heard from.

MAIMED FOR LIFE IN TERRIBLE ACCIDENT

As Result of Explosion in High School Laboratory Vera Nolan Will Lose Right Eye.

In an accident at the high school chemical laboratory yesterday afternoon Miss Vera Nolan, fifteen-year-old daughter of Mr. and Mrs. Thomas Nolan, sustained injuries which will cost her the use of her right eye. Hydrogen was being generated from acid in a flask and the customary precaution of lighting a quantity of the gas removed in a test tube so as to determine whether or not there was any disturbing quantity of air present, had been performed without showing any dangerous indications. When the light was applied to the flask, however, it exploded and one piece of the flying glass lodged in the eye of the student operator, cutting across and through the iris and into the lens, and utterly destroying the front chamber. The diagonal gash was three-quarters of an inch long. A carriage was called and the unfortunate young lady, bearing up bravely under the terrible pain, was removed with all possible haste to the office of Dr. W. H. Palmer. The services of Dr. C. C. Dwight, expert oculist, were at once secured and on his advice the patient was removed to the Palmer hospital. He found on examination that the sight was hopelessly lost. Whether or not it will be advisable to remove the lacerated member is still a question. At noon today the young lady was reported to be resting as easily as possible under the circumstances, but the condition of the eye was unimproved. The young woman and her afflicted parents have the deepest sympathy of hundreds of friends in the city. Prof. Arbutnot said this morning: "Every precaution was taken. The experiment was not deemed a dangerous one. It is seldom that anything worse has happened than the blowing out of the cork. One piece of the glass cut one of my hands and the single piece to strike Miss Nolan was the one which lodged in the eye. Long ago we thought we had eliminated all the experiments wherein there was any element of danger. You may be sure that this one will not be repeated."

JEFFERSON HOTEL WAS BURGLARIZED

Also a Residence and the Depot at Jefferson Junction Last Evening.

Word was received from Jefferson at an early hour this morning that a private residence and a hotel had been burglarized there. The Northwestern depot at Jefferson Junction was also broken into and some stamps taken. Officer Fanning searched the railroad yards, but came upon no suspicious characters.

Mrs. I. C. Sloan

The remains of the late Mrs. I. C. Sloan will arrive here at 10:15 o'clock over the St. Paul road tomorrow morning and be taken to the Oak Hill chapel, where Rev. R. C. Denison will conduct funeral services at 11:45.

Mrs. Effie Pearce

After a long illness Mrs. Effie Pearce passed away at the home of her parents, Mr. and Mrs. John Lloyd, early this morning. In her death a woman widely known and loved has gone from us. She was born Jan. 29, 1839, in Walworth, Wisconsin, where she passed her girlhood days. She was married October 1, 1859, to George E. Pearce. Two sons were born to them, Rexford and Malvern. In 1895 they removed to Janesville. There survive of immediate relatives to mourn her death her husband, sons, parents, and brother. She united with the Baptist church at twelve years of age. She was a most exemplary and devoted Christian. Among the King's Daughters she was a prominent worker. The funeral exercises will be held at the home of her parents, 2 Yuba street, at 2:00 o'clock Friday afternoon, Rev. R. M. Vaughan officiating.

TERRIBLE DEATH LAST EVENING

E. RAY SMITH KILLED AT BROOKLYN ABOUT TEN.

HIT BY VESTIBULED TRAIN

Was Braking on North-Western Road, Coming to Janesville—Every Bone in Body Broken.

E. Ray Smith of this city was killed on the tracks at Brooklyn last night. He was braking with Conductor Conc, being en route from Baraboo to Janesville. At Brooklyn the train stopped to switch out a few cars and as Smith crossed the parallel tracks to go to the depot to mail some orders he was struck, it is supposed, by the vestibuled train which passed through here at 9:20 o'clock from Chicago to St. Paul. It was not known by the train crew that he had been hit and first knowledge of the fatal accident was gained when the terribly mangled body was found ten feet from the rails by some country boys, who were going to a dance. This was about 10:20 o'clock and the watch on his body had stopped at 10:00. There was not a bone in his body that was not broken and death was surely instantaneous. Mr. Smith was well known in the city and leaves three small children. His wife, formerly Miss May Walsh of this city, died very suddenly several months ago. Mrs. Joe Scholer and Mrs. Ed Hemming are sisters-in-law of Mr. Smith. The remains are at Brooklyn. No arrangements for the funeral will be made until the deceased's mother, now in the northern part of the state, is heard from.

STOP, WOMAN!

AND CONSIDER
THE ALL-
IMPORTANT FACT

That in addressing Mrs. Pinkham you are confiding your private ills to a woman—a woman whose experience with women's diseases covers a great many years. Mrs. Pinkham is the daughter-in-law of Lydia E. Pinkham, and for many years under her direction, and since her decease, she has been advising sick women free of charge. Many women suffer in silence and drift along from bad to worse, knowing full well that they ought to have immediate assistance, but a natural modesty impels them to shrink from exposing themselves to the questions and probable examinations of even their family physician. It is unnecessary. Without money or price you can consult a woman whose knowledge from actual experience is great.

Mrs. Pinkham's Standing Invitation.

Women suffering from any form of female weakness are invited to promptly communicate with Mrs. Pinkham, at Lynn, Mass. All letters are received, opened, read and answered by women only. A woman can freely talk of her private illness to a woman; thus has been established the eternal confidence between Mrs. Pinkham and the women of America which has never been broken. Out of the vast volume of experience which she has to draw from, it is more than possible that she has gained the very knowledge that will help your case. She asks nothing in return except your good-will, and her advice has relieved thousands. Surely any woman, rich or poor, is very foolish if she does not take advantage of this generous offer of assistance.

If you are ill, don't hesitate to get a bottle of Lydia E. Pinkham's Vegetable Compound at once, and write Mrs. Pinkham, Lynn, Mass., for special advice.

When a medicine has been successful in restoring to health so many women, you cannot well say, without trying it, "I do not believe it will help me."

FORTY YEARS AGO

Janesville Daily Gazette, Wednesday, April 18, 1866.—Night Train for Prairie du Chien and Milwaukee.

Such arrangements are now made on the railroads as to enable passengers to leave here on the C. & N. W. Road at 9 o'clock and reach Milton Junction in time to take the train on the M. & Prairie du Chien, going both west and east.

Western passengers can take a sleeping car and find their selves in Prairie du Chien next morning. Eastern bound travelers are compelled to wait at the Junction some time before the train comes along.

A Grand Horse Show.—The wide awake Stock Growers' Association of Rock County have perfected arrangements for holding the first annual exhibition of stallions at the Janesville Driving Park in this city on Thursday and Friday, May 17th and 18th.

The object of holding this exhibition is to promote the improvement of horses, and we have no doubt it will be interesting and largely attended. Coming as it does after the planting season and before other active farming operations are commenced, the occasion will attract general attention and be likely to call together a large gathering.

"The Wisconsin Chief" regrets that Mr. Sloan's name is not found recorded in favor of Civil Rights bill over the President's veto. At the time Mr. Sloan left Washington, it was the general opinion that the bill could not pass the Senate, but to provide against every contingency he arranged to be telegraphed for if his vote was needed in the House. As soon as the bill passed the Senate, it became manifest that it would pass the other branch of Congress by a large vote, which made it unnecessary to send for Mr. Sloan. As the vote stood 112 to 41, it ought to satisfy "The Chief." Mr. Sloan has been quite unwell, but will soon return to his post.

New York Girls' New Fashion.

What do you think the girls are wearing now? Necklaces of shells. They come from Honolulu and are as beautiful as they are cheap, which is saying a great deal in this era of exorbitant prices, for they cost only \$1.50 each. Nothing could be more beautiful in color than these island chains, and they measure about two yards in length, making it possible to wind them three times about the neck.

Every pastel shade is represented and the combination of wonderful blues and greens, purples, pale yellows and luscious rose tints are calculated to put a Queen Trigger fish to shame. These necklaces look particularly well on white gowns and blouses and are daintily exquisite.

The shells are so small and so wonderfully alive with color that the casual observer wonders what on earth they are. They are still uncommon enough to attract much attention, for they are obtainable only through a special agent. They make especially pretty fan or loggnette chains and are most durable.—New York Sun.

Whets Appetite of Guests.

Almira Todd relates that an Erie woman had guests to dinner the other day, and during the progress of the meal she entertained them with a history of the fowl they were devouring. "Yes," she concluded, "this was one of the best layin' hens, an' I hated awful to kill her, but she'd been so droopy and sick lookin' lately, I thought I might as well, an' get some good out of her."—Kansas City Star.

Rowe's Stable.

Western Turfman Will Again Campaign His Charges on Eastern Tracks.

For the third time Charles E. Rowe's well known turf colors, which have been carried in many of the rich events in the east by such good performers as First Mason, Colonial Girl, Mabel Richardson and other good horses, will be seen on the metropolitan tracks this year.

Rowe is provided with one of the best jockeys of the country in Sewell, who forged to the front during the meeting at the Crescent City track, and, although he has only a small band of two-year-olds to race in his colors, he thinks he will be able to win against some of the good horses.

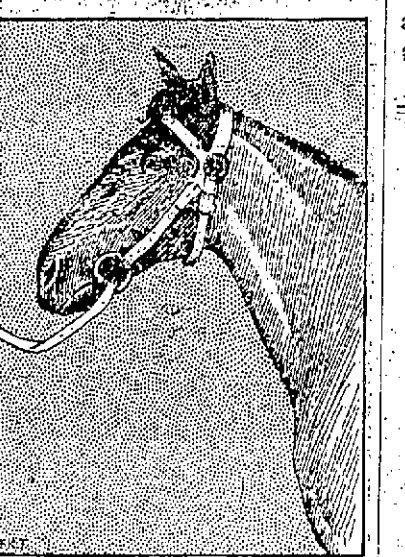

He has first call on the services of Sewell, and with Mabel Richardson, Colonial Girl and First Mason in condition he thinks he will cut quite a figure in the east. Some of his youngsters have shown preliminary trials in a fashion which has caused him to nominate them freely in a number of rich stakes.

In the early part of last spring Rowe had a few two-year-olds, but he let all of them go. He had invested quite a sum of money in them, but after he gave them a thorough trying out he came to the conclusion that it would be cheaper to sell them than to pay their feed bills. It turned out that he was a winner on the deal, as none of them, which were sold to western owners, ever amounted to anything and in nearly all their races were placed among the also-rans.

Later on he secured one good colt in La Sorciere, which he purchased from G. C. Baker during the Memphis meeting. It is said that he paid something like \$10,000 for this horse. The colt won several races for him during last season and added a few more purses to his owner's bank roll by capturing some of the two-year-old events at the Crescent City track during the early days of the meeting. This season he has invested less than the amount he is said to have paid for La Sorciere in five youngsters, which are all nicely bred and have shown enough speed in their trials to attract the attention of the rail birds.

The filly by Meddler—Auricoma, which was bred by John E. Madden, and the colt by Alloway—Polmaise, which was bred by J. B. Hagen, are considered to be the best. The Meddler filly is a sister to Red Fox and a half sister to Bearcatcher, Slow Poke, Cold Rod II, and Medina.

The colt by Alloway—Polmaise is a half brother to Gleam, Apollinaris,

FIRST MASON.

Moses, Corn Cob, Rosalia and Indian Corn. The brown filly by Woolsthorpe—Grenadine is a sister to the good boxer Broadcloth and a half sister to a winner of nine races.

Rowe has entered in many events which will be run at Gravesend, Sheepshead Bay and Brighton (all New York tracks). First Mason has been entered in the Suburban handicap at Sheepshead Bay, the Brighton handicap and the Nautilus stakes at Brighton and the Brookdale handicap and Myrtle stakes at Gravesend.

Colonial Girl has been named to go in the Brooklyn handicap, the Brookdale handicap and the Marlboro handicap at Gravesend, and the Suburban handicap at Brighton. Mabel Richardson has only been entered in one event, the Nautilus stakes at Brighton Beach.

The three-year-old La Sorciere has been entered in a number of rich events, which include the Myrtle, Patchogue and Myrtle stakes at Gravesend, the Swift stakes at Sheepshead Bay and the Test handicap, Jamaica, and Glen Cove handicap at Brighton Beach.

The two-year-olds are entered liberally in a number of stakes. The Scarpinus colt is named for the Montauk and Manhattan stakes at Gravesend and the Great Eastern handicap and Zephyr stakes at Sheepshead Bay. The Alloway colt is entered in the Great Eastern handicap and Spring stakes at Sheepshead Bay and the Montauk stakes at Brighton Beach.

The Woolsthorpe filly is engaged in the Clover, Bedford and Atlantic and Distaff stakes at Brighton Beach. The Meddler filly has only one engagement, the Atlantic stakes at Brighton Beach. The bay colt by Cesarion—Orla Bailey has been named for the double event and Zephyr stakes at Sheepshead Bay and the Manhattan stakes at Gravesend.

Is This True, Marvin?
Marvin Hart's longing for his old Kentucky farm probably was intensified by his defeat by Burns. Now he had better challenge Jeffries to a rutabaga growing contest.

Michael Davitt, who is suffering from blood poisoning, has been operated on by Sir William Thornley Stoker, president of the Royal Academy of Medicine in Ireland, and is progressing satisfactorily.

THE KING OF
BLOOD PURIFIERS

No other remedy has given such perfect satisfaction as a blood purifier and tonic or is so reliable in the cure of blood diseases of every character as S. S. S. It is known as "The King of Blood Purifiers," and the secret of its success and its right to this title is because "IT CURES DISEASE." It is an honest medicine, made entirely of purifying, healing roots, herbs and barks, which are acknowledged to be specifics for diseases arising from an impure or poisoned condition of the blood and possessing tonic properties that act gently and admirably in the up-building of a run-down, weakened or disordered condition of the system.

One of the greatest points in favor of S. S. S. is that it is the only blood remedy on the market which does not contain a mineral ingredient of some kind to derange or damage the system. It is the one medicine that can be taken with absolute safety by the youngest child or the oldest member of the family, and persons who have allowed their systems to get in such condition that most medicines are repulsive to the stomach will find that S. S. S., while thorough, is gentle and pleasant in its action, and has none of the nauseating effects of the different mineral mixtures and concoctions offered as blood purifiers.

As every part of the body is dependent on the blood for nourishment and strength, it is necessary that this vital fluid be kept free from germs and poisons. So long as it remains uncontaminated we are fortified against disease, and health is assured; but any impurity, humor or poison acts injuriously on the system and affects the general health. Pustular eruptions, pimples, rashes and the different skin affections show that the blood is in a feverish and diseased condition as a result of too much acid or the presence of some irritating humor. Sores and Ulcers are the result of morbid, unhealthy matter in the blood, and Rheumatism, Catarrh, Scrofula, Contagious Blood Poison etc., are all deep-seated blood disorders that continue to grow worse as long as the poison remains.

But all blood diseases are not acquired; some persons are born with an hereditary taint in the blood and we see this great affliction manifested in many ways. The skin has a waxy, pallid appearance, the eyes are often weak, glands of the neck enlarged, and as the taint has been in the blood since birth the entire health is usually affected. In all blood troubles S. S. S. has proved itself a perfect remedy and has well earned the title of "KING OF BLOOD PURIFIERS." It goes down into the circulation and removes all poisons, humors, waste or foreign matter, and makes this stream of life pure and health-sustaining. Nothing reaches inherited blood troubles like S. S. S.; it removes every particle of the taint, purifies and strengthens the weak, deteriorated blood, and supplies it with the healthful properties it needs and establishes the foundation for good health. As a tonic this great medicine has no equal, and it will be found especially bracing to weak, anemic persons. Rheumatism, Catarrh, Sores and Ulcers, Skin Diseases, Scrofula, Contagious Blood Poison and all other blood troubles are cured permanently by S. S. S., and so thorough is the cleansing of the blood that no trace of the disease is left to break out in future years or to be transmitted to offspring. If you are in need of a blood purifier get "THE KING" of them all, S. S. S.—and good results are assured. Book on the blood and any medical advice desired furnished without charge to all who write.

AMERICAN PRIEST MAY BE SELECTED HEAD OF JESUITS

Rev. Rudolph L. Meyer, S. J., of St. Louis, May Succeed Father Martin.
—Meyer Once Located in Milwaukee.

[SPECIAL TO THE GAZETTE.]
Washington, D. C., April 18.—In American Catholic circles here considerable interest is manifested in the death of Father Louis Martin, general of the Jesuit order, who died in Rome today, because of the possibility that the honor of succeeding him as head of the order may fall upon an American priest. Rev. Rudolph L. Meyer, S. J., though an American has never been chosen to head the order there is said to be nothing in the rules or customs of the great organization founded by St. Ignatius de Loyola to prohibit such a selection.

Father Meyer is a native of St. Louis and for a number of years he was president of St. Louis university. At present he is one of the five consultants of the general of the order. These consultants are at the head, respectively, of the English, Italian, Spanish, German and French assistance, Father Meyer having the English assistance. The consultants reside at Rome and live in the same residence with the general.

Preceding the four years, he served as president of St. Louis university, Father Meyer taught in St. Louis, Cincinnati and Chicago. After his term as president he was promoted to be provincial, and in 1889 was sent as visitor to California. Becoming prefect of studies at Marquette college, Milwaukee, he was delegated in 1892 to assist at the general congregation at Loyola, Spain, and was detained by the general of the society to be assistant for the English-speaking provinces of the order, which position he now holds.

THE PHI KAPPA PSI BIENNIAL REUNION

National Council of Fraternity—Being Attended by Stanley Dunwiddie, of Janesville.

[SPECIAL TO THE GAZETTE.]

Washington, April 18.—The Phi Kappa Psi fraternity began its twenty-fourth biennial council meeting in the capital today with members present representing leading colleges from the Atlantic to the Pacific. Very little business is to be transacted and the gathering is almost wholly in the nature of a reunion. Many members of congress and other officials in Washington are members of the society and are helping in the entertainment of the visitors. The fraternity was founded in 1852 at Jefferson College, Pennsylvania, and now has a membership of nearly 10,000.

New Head for Texas "U."
Austin, Texas, April 18.—Many dis-

tinguished educators representing leading colleges and universities of Texas and neighboring states are gathered in Austin to attend the inauguration of Dr. David Franklin Houston as president of the University of Texas. Though the installation itself does not take place until tomorrow it was preceded today by the reception of the visitors and several conferences to discuss the Texas city school problems and other matters of general interest to those engaged in educational work. The state association of county superintendents held largely attended sessions both in the morning and afternoon.

CALM REIGNS AT SPRINGFIELD

Precautions Are Taken Against Resumption of Mob Rule.

Springfield, Mo., April 18.—The situation here remains unchanged. There have been no disturbances and the crowds on the streets have diminished in size. The soldiers have remained quietly in camp, ready to march at a moment's notice. Squads of special police continue to patrol all parts of the city so that any effort to cause trouble can be stopped before it has a chance to get any strength.

Leslie Peters, the 18-year-old boy who Monday night shot and killed Ralph Burns, a negro, in defense of his own life and his sweetheart's honor, was acquitted by a coroner's jury.

The fact that no more arrests of the mob leaders are expected to be made until the special grand jury gets through with its secret session, has had its effect on quieting the people.

CONTINUE CASES FOR DIVORCE

Sioux Falls Colony Expected to Carry Out Original Intentions.

Sioux Falls, S. D., April 18.—The United States supreme court decision in the Haddock divorce case created a sensation among members of the divorce colony here. Attorneys interested in the South Dakota divorce industry say they are not prepared at this time to state what effect the decision will have. However, it is believed that regardless of the decision, the present members of the colony will not abandon their intention to secure divorces.

Steal Tray of Diamonds

San Francisco, April 18.—Two thieves entered the store of J. Q. Hatch, on the second floor of the Chronicle building, and struck the clerk a blow over the head with the butt of a revolver, rendering him unconscious. A tray of diamonds valued at several thousand dollars was taken from the show case.

ILLINOIS WINS VICTORY IN TREASURERS' SUIT

Court Holds That Henry Wulf and Other Officials Must Return Fees and Interest.

Springfield, Ill., April 18.—The state of Illinois won an important victory Tuesday in a case instituted against former State Treasurer Henry Wulf, of Chicago, to recover fees alleged to be due the state for commissions retained by the state treasurers and auditors of public accounts on interest on county and municipal bonds which they have collected from holders of bonds. Wulf was not served with a summons in the case in time and the case was brought against former Assistant State Treasurer Floyd K. Whittemore, of this city, one of his bondsmen.

Whittemore entered a demurrer to the statement of Attorney General Stead, who appeared for the state on the ground that it was not sufficient in law to create a liability on the part of defendant. Judge Shirley overruled the demurrer of Whittemore. The court holds that the statement and declaration, if proved, would have entitled the state to recover on the amount sued for. Defendant must either abide by his demurrer and take the case to the supreme court or file a new plea. He has admitted receiving the fees, but has denied that he is liable to the state for them, and must now pay the amount or take the case to the supreme court.

LEWIS IS PURGED OF CONTEMPT

Complies with Judge Humphrey's Order to Withdraw Suit.

Springfield, Ill., April 18.—Col. James Hamilton Lewis, a corporation counsel of Chicago, who was adjudged in contempt of court Monday by Judge Humphrey, of the United States district court, for filing a suit for the second mortgage bondholders against the Alton water works in the circuit court of Madison county at Edwardsville in violation of the injunction issued by Judge Humphrey last May restricting any persons from attacking the validity of the loan of the Farmers' Loan and Trust company to the Alton water works, Tuesday purged himself of contempt by withdrawing the suit in Madison county circuit court.

BROTHERS IN MORTAL COMBAT

One Is Dead, While the Other Will Succumb to Knife Wound.

Duluth, Minn., April 18.—A tragedy in which the result will be the murder of two brothers by each other, shocked Hibbing Sunday night. Near the Morris mine location, Steve Deckovitch shot and killed his brother Marco, after the latter had inflicted what is almost certain to be a mortal knife wound on him. Steve is in the hospital, but is not expected to live.

LODGE AND PLATT ARE PETITIONED

By Chamber of Commerce of New York State to Pass Favorably on Philippine Bill.

[SPECIAL TO THE GAZETTE.]
Washington, D. C.—A number of senators, among them Messrs. Lodge, of Mass., and Platt, of N. Y., have received copies of a petition from the Chamber of Commerce of the State of New York, favoring the passage of the Philippine tariff bill. These have been presented to the senate and in turn referred to the committee on the Philippines, where peacefully repose the Philippine tariff bill.

The petition of the New York Chamber of Commerce reads as follows: "At the monthly meeting of the chamber of commerce, held April 5, 1906, the following preamble and resolutions, reported by its committee on foreign commerce and the revenue laws, were adopted:

"Whereas, the committee on the Philippines of the senate, has, by a vote of eight to five, declined to report, even for consideration, the Philippine Tariff Bill, and
"Whereas this bill, apart from its economic aspect, seems to this chamber to involve a principle that is vital to a colonial policy that is to be either wise or just, namely, the principle that a colony is to be administered in its own interest and not in the interest of the governing country; and
"Whereas even in its economic aspect the effect of this bill upon the United States can be but slight, while its effect upon the Philippines may be advantageous in the highest degree; Therefore, be it

"Resolved, That the Chamber of Commerce of the State of New York hereby urges upon the committee on the Philippines of the senate and upon the senate prompt and favorable consideration of this important measure; and be it further resolved that copies of these preambles and resolutions be transmitted to the appropriate authorities at Washington and to kindred commercial bodies, with the request to the latter that they take similar action at any early day."

WEDDINGS IN ARMY AND NAVY CIRCLES

Brilliant Military Event at Washington, D. C.—Naval Ceremony in Same City.

[SPECIAL TO THE GAZETTE.]
Washington, D. C., April 18.—In the Pro-Cathedral Church of the Ascension took place late this afternoon the wedding of Miss Nannie Graham Hume, daughter of Mr. and Mrs. Frank Hume of this city, and Lieut. Henry C. Jewett, U. S. A. The presence of many army officers in full dress uniform gave brilliancy to the occasion. The bride was attended by Miss Elizabeth Peters of Cincinnati, Miss Grace Hanna of Cleveland, and the Misses Irene Moore and Ruth Halford of this city. Josiah Jewett, Jr., of Buffalo, acted as his brother's best man, and the ushers were Lieut. U. S. Grant, 2d. Lieut. Adams, Lieut. Poole, Capt. Clark Smith and Capt. Adams. The ceremony was followed by a large reception at the home of the bride's parents.

In St. John's church today Miss Maud Ely, daughter of Mrs. Richard S. Ely of this city, was married to Lieutenant Commander John H. Gibbons, U. S. N. The bridegroom is at present naval attaché to the American Embassy in London, and will take his bride to that city to live.

Virginia Sunday Schools.

Newport News, Va., April 18.—Every train today brought its quota of visitors to the fifteenth annual convention of the Virginia State Sunday School association, and a glance at the register at convention headquarters gave indication of a record-breaking attendance. The arriving delegates found perfect arrangements made for their reception and entertainment. At the formal opening in the First Presbyterian church tonight the visitors will be greeted by Mayor Buxton, to whose address response will be made by Prof. George W. Walker of Blacksburg, president of the association. The feature of the evening will be an address by Marion Lawrence, general secretary of the International Sunday School association. The business sessions will begin tomorrow and continue until Saturday.

EARTHQUAKE IN SAN FRANCISCO

THOUSANDS ARE REPORTED DEAD

Golden Gate the Scene of Awful Siesmic Disturbances Today-- City On Fire and People Fleeing For Safety-- No Water or Any Power.

(BY ASSOCIATED PRESS)

SAN FRANCISCO, April 18--San Francisco practically wrecked by an earthquake at 5:10 this morning. Shock lasted three minutes. A thousand buildings damaged and destroyed. The loss of life is reported great. No water; fires all over city. All wires except one gone.

AWFUL LOSS OF LIFE

SAN FRANCISCO, April 18, 10:30--While everything is yet in confusion the loss of life it is thought will reach into the thousands, and the property loss into the millions. Fire is raging which threatens to destroy the entire city.

[BY ASSOCIATED PRESS.]
San Francisco, Calif., April 18.--The city hall, costing seven millions of dollars, is in ruins. The modern buildings suffered less than the brick and frame. The terror and excitement is indescribable. Most of the people were asleep and rushed into the streets undressed. The buildings swayed and sank, burying the occupants. Panic in the downtown hotels is awful. The Lick House is badly damaged, but there is no loss of life there. The Palace and St. Francis hotels stood the shock. The greatest damage to the buildings is south of Market street, where most of the frame buildings and tenement houses are located. There are fires in every block in the district.

Early Reports
Sacramento, Calif., April 18.--A severe earthquake shock occurred near here at an early hour this morning.

All Business Suspended
San Francisco, Calif., April 18, 11 a. m.--All the business is suspended and power of every kind is gone. There are no lights. Between the Postal Telegraph office and the water front there was great damage by fire. The residence districts are safe as far as heard from.

The First Word
New York, April 18.--Reports have reached here that a severe earthquake wrecked many buildings and caused a loss of life in San Francisco at 5:13 this morning. Fire broke out in the wrecked buildings. The Postal Telegraph office is wrecked and all communication is lost.

No Wires
Chicago, April 18.--The telegraph companies here are entirely without wires to San Francisco. The Sacramento office reports a very heavy earthquake west and considerable damage is reported in that city.

Buildings Going Down
Kansas City, Mo., April 18.--The Postal Telegraph company here states the only information obtainable from the west was from their operators at San Francisco as they left the Postal building. They reported many buildings had collapsed and fire was breaking out with no water available

to fight the flames. The people were fleeing from the affected districts.

Railway Notified
Chicago, April 18.--The Union Pacific Railway company has received word by a train that the company's wires are down west of Winnamucca. The dread of the earthquake, seems to have covered several hundred miles.

At Sacramento
Sacramento, Calif., April 18.--A severe earthquake shock occurred here at an early hour this morning.

Janesville Concerned
Many relatives and friends of Janesville people as well as former residents of this city are located in San Francisco and the neighboring cities and the word is regarding the catastrophe, carried along the streets this morning, caused dozens of anxious inquiries to be made at the Gazette office. Mrs. Ellen Abbott, a sister of F. S. Winslow, and two sons Frank and Herbert live in the California metropolis. Captain Thomas Richardson, a son of Hamilton Richardson of this city and until recently

in the Philippine service, is at Angel Island, in San Francisco bay with his regiment. Hattie A. Morris, a sister of Capt. B. F. Moore, resides in the city. The Misses Julia and Edith Echlin, who have left Los Angeles on the home trip, expected to be in San Francisco today. Kramer Doty, a son of Edward Doty, is located across the bay from the city. E. H. Harlow, a son of E. G. Harlow, is located at Pt. Richmond, seven miles across the bay from San Francisco. He is master mechanic for the Santa Fe railway.

Miss Genevieve Schnell, daughter of Mr. and Mrs. Albert Schnell, Milton avenue, is in San Francisco; also Mr. and Mrs. F. S. Baines. Miss Leffingwell, who formerly clerked at Bostwick's store, is also in the city.

New Hampshire G. A. R.
Concord, N. H., April 18.--A large number of veterans and their friends filled representatives' hall of the state house today at the opening of the annual G. A. R. encampment of the department of New Hampshire. Routine business occupied the initial session. This evening in the opera house there is to be a big welcoming demonstration with greetings by Gov. McLane, Mayor Corning and others and responses by prominent members of the Grand Army. The Woman's Relief Corps and other auxiliary orders are also in annual session.

DIAMOND CONTEST CLOSED WITH PLEASANT BANQUET

Bright Scene In Myers House Dining Room
Last Evening--One Hundred And
Thirty Present.

With a banquet at the Myers House last evening the Gazette diamond voting contest, which has engrossed the attention of the city and county for the past few weeks, was brought to a very pleasant close. The affair was given by the Gazette Printing and their guests and the judges of company in honor of the candidates election. The guests numbered a hundred and forty and after partaking of an elaborate repast listened to a series of interesting toasts.

Side Issues on Menu.
It was at eight-thirty that the company was seated in the dining-room. They posed for a flashlight photograph for a few moments and the following menu, written with "side issues," was served:

Consomme in cups

Royal Neighbor flakes

Dill pickles. Crisp celery

For the sou'-eons. For the nerves

Olives

For the grouchy.

Salted almonds

From Salt river.

Eagle punch.

Cold turkey. Baked sweet-rams

Cigars. Melange of chocolate

Principles de la Edgerton. Dunwiddie.

During the feasting sweet music

was discoursed by Lake's orchestra,

which was seated in an alcove off the

dining hall. The tables were decorated

with red and white carnations.

Excellent Service.

Special attention was given by the

hotel management to the banquet and

despite the fact that places had been

ordered for a hundred and a hundred

and forty were present this was quickly

remedied and everything was conducted

in an able manner; the banquet being

most perfect in cuisine and service.

Postprandial Program.

At the close of the serving City

Treasurer James A. Fathers tapped for

order and opened the postprandial

program. He said in part: We are

here this evening to celebrate the

closing of one of the greatest contests

ever held in this city. It was one of

the greatest undertakings with very

great results that I have any knowledge

of. Five weeks ago when it was inaugurated

hardly a rifle was created and there

were those who thought possibly a few

thousand votes might be cast for some

candidates. But interest was awakened

and nearly 700,000 ballots were polled. There

were many contestants, but of course, only

four could win. For these the Gazette

offered beautiful prizes.

Prizes Presented.

"Of course you all know," Mr. Fathers

continued, "who have won these

trophies. The ladies' diamond has

gone to one who has won by her own

popularity with the public and the

popularity of two corps which have

worked energetically for her. These

are the Women's Relief Corps and the

local post of the Grand Army of the

Republic, which order is probably

reverted above all others by the people

and which in its last days now may

have almost anything it asks for.

To you, Miss Willis, I present this ring

and hope that you will proudly wear

it as a reminder of this very pleasant

contest and event." In response, Miss

Willis expressed her appreciation and

thanks and said: It is not for the

intrinsic value of this ring that I

prize it, but rather for the manner in

which it was given. I fully recognize

the honor placed upon me and in saying

a few words on "The Lady Candidates"

I voice the pleasure which all have

taken in the race. I was surprised to

receive the diamond ring for I did not

believe I would secure it but was

working rather for the flag. The other

contestants are my friends and I am

not so happy today as if they had won.

From this contest pleasant memories

will always remain with me.

Gave Thanks to All.

Toastmaster Fathers then presented

the gentlemen's diamond ring to

Mr. Connors, calling him a very large

majority, won on the popularity of

ed one of Janesville's progressive business firms--the Smith-Drug company, which had endeavored to make the people believe that Rocky Mountain Tea, Rexal Tablets and Smith's Kidney would cure all ills. Mr. Smith expressed himself as highly pleased to accept the flag. He said Mr. Spicer was responsible for his entrance into the race and he wished to thank Mr. Spicer and all his friends for their services. Mr. Fathers presented the ladies' flag to Mrs. Mason; saying that the winner had received a very flattering vote and by \$7,000 ballots, or more had placed at her disposal this old glory. Mrs. Mason responded with these words: "Do you take the Gazette?" She said this was the sentence that gave her second place and she was very much pleased with the award. "Mr. Smith and myself," she continued, "will not, like Mr. Connors and Miss Willis, have to fear that robbers will take our valuable gems if we leave them at home or be compelled to wear our best bills and tuckers to match the diamonds when they are worn. I was proud to represent such a worthy organization as the Royal Neighbors and wish to thank my friends in that organization, those who assisted me from among the Woodmen, and all others from the Old Fellows' auxiliary order, from the church to which I belong, and from the general public. In accepting the flag and thanking Mr. Burke and the Gazette Mrs. Mason closed with a verse from a poem entitled "Old Glory," which she composed at the close of the Spanish-American war:

"Where Old Glory leads they'll go,
E'en down to the cannon's mouth--
The boys of the North we love so well,
The boys of the Sunny South."

"Winners" and "Losers"

Resuming the program of toasts

Mr. Fathers reminded his hearers

that in every contest, political or otherwise, there were winners and losers.

To toast the winners he called upon

a political winner, Mayor J. F. Hutchinson. Mr. Hutchinson said he

was much pleased to receive this post-

prandial duty, though it had not been

assigned him until a few hours previous

to the banquet. "No contest," he

stated, "has received such attention

and been universally interesting to the

county and city as has this diamond

contest. Though the winners will

take more satisfaction in the fact that

this race evidenced to them the number

and truthfulness of their friends, the

Gazette is entitled to congratulations

for inaugurating and conducting such a

contest." A. P. Burnham, one of the

judges, was called upon to speak to

the "Losers." In this topic, he

said, he found a rather difficult duty

for consolation was hard to give. Denis

Hayes was to have spoken, but as he

believed Mr. Hayes had shirked his

duty in counting ballots he had raised

an objection and secured the place.

The only loser, he could find now

was Mr. Hayes, for every one about

him, and among them the candidates

who did not win prizes, seemed happy.

Mr. Burnham closed, wishing these

contestants God-speed in all other

places in which they participated and

in the contest of life.

"Advantages with Paper"

H. H. Bliss spoke on "Advantages of

the Contest." Mr. Fathers in his

introduction said that the new subse-

quenters were among those to receive ad-

vantages. Mr. Bliss said that the ad-

vantages of the contest were plainly

with the paper, that prestige, which

they cannot buy, had been secured

and weighed and though expenses

were heavy these were overbalanced

greatly by the prestige gained. Mr.

Fathers remarked that the paper, by

these expenditures, had shown that it

was not afraid to advertise, living

up to the policy it advocated.

"The Bright Side"

D. W. Hayes was introduced to

speak of "The Bright Side." The

toastmaster said everything was bright

and there was no dark side. Mr.

Hayes said, through the sage advice

of Mr. Burnham, whom he appealed to

in all cases as a court of last resort

and who fully lived up to that part

in manner and ability, that he had

been responsible for bringing out

one of the successful candidates; Mr.

Connors. The remarks made a clever

reply to Mr. Burnham and truly represented

the brightness of the contest and the

closing scene. This closed the

program previously arranged, but

the toastmaster called upon E. H.

Burke, who did most of the work.

The latter excused himself for his

self-alleged inability to make a

speech and then told of the great

pleasure he had derived from his work

among Janesville and Rock county

people. It was also a pleasure, he

continued, to represent a paper so

generally well thought of. The con-

ditions he found were remarkable.

Between Milton and Janesville, a distance

of ten miles, he found on a drive

through that district that but two

STOP, WOMAN!

AND CONSIDER THE ALL-IMPORTANT FACT

That in addressing Mrs. Pinkham you are confiding your private life to a woman—a woman whose experience with women's diseases covers a great many years.

Mrs. Pinkham is the daughter-in-law of Lydia E. Pinkham, and for many years under her direction, and since her decease, she has been advising sick women free of charge. Many women suffer in silence and drift along from bad to worse, knowing full well that they ought to have immediate assistance, but as a natural modesty impedes them to shrink from exposing themselves to the questions and probable examinations of even their family physician. It is unnecessary. Without money or price you can consult a woman whose knowledge from actual experience is great.

Mrs. Pinkham's Standing Invitation. Women suffering from any form of female weakness or irregularity, communicate with Mrs. Pinkham at Lynn, Mass. All letters are received, opened, read and answered by women only. A woman can freely talk of her private illness to a woman; thus has been established the eternal confidence between Mrs. Pinkham and the women of America which has never been broken. Out of the vast volume of experience which she has to draw from, it is more than possible that she has gained the very knowledge that will help your case. She asks nothing in return except your good-will, and her advice has relieved thousands. Surely any woman, rich or poor, is very foolish if she does not take advantage of this generous offer of assistance.

If you are ill, do not hesitate to get a bottle of Lydia E. Pinkham's Vegetable Compound at once, and write Mrs. Pinkham, Lynn, Mass., for special advice. When a medicine has been successful in restoring to health so many women, you cannot well say, without trying it, "I do not believe it will help me."

FORTY YEARS AGO

Janesville Daily Gazette, Wednesday, April 18, 1866.—Night Train for Prairie du Chien and Milwaukee.

Such arrangements are now made on the railroads as to enable passengers to leave here on the C. & N. W. Road at 9 o'clock and reach Milton Junction in time to take the train on the M. & Prairie du Chien, going both west and east.

Western passengers can take a sleeping car and find themselves in Prairie du Chien next morning. Eastern bound travelers are compelled to wait at the Junction some time before the train comes along.

A Grand Horse Show.—The wide awake Stock Growers' Association of Rock County have perfected arrangements for holding the first annual exhibition of stallions at the Janesville Driving Park in this city on Thursday and Friday, May 17th and 18th.

The object of holding this exhibition is to promote the improvement of horses, and we have no doubt it will be interesting and largely attended. Coming as it does after the planting season and before other active farming operations are commenced, the occasion will attract general attention and be likely to call together a large gathering.

"The Wisconsin Chief" regrets that Mr. Sloan's name is not found recorded in favor of Civil Rights bill over the President's veto. At the time Mr. Sloan left Washington, it was the general opinion that the bill could not pass the Senate, but to provide against every contingency, he arranged to be telegraphed for if his vote was needed in the House. As soon as the bill passed the Senate, it became manifest that it would pass the other branch of Congress by a large vote, which made it unnecessary to send for Mr. Sloan. As the vote stood 112 to 41, it ought to satisfy "The Chief." Mr. Sloan has been quite unwell, but will soon return to his post.

New York Girls' New Fashion. What do you think the girls are wearing now? Necklaces of shells. They come from Honolulu and are as beautiful as they are cheap, which is saying a great deal in this era of exorbitant prices, for they cost only \$1.50 each. Nothing could be more beautiful in color than these island chains, and they measure about two yards in length, making it possible to wind them three times about the neck.

Every pastel shade is represented and the combination of wonderful blues and greens, purples, pale yellows and luscious rose tints are calculated to put a Queen Trigger fish to shame. These necklaces look particularly well on white gowns and blouses and are daintily exquisite.

The shells are so small and so wonderfully alive with color that the casual observer wonders what on earth they are. They are still uncommon enough to attract much attention, for they are obtainable only through a special agent. They make especially pretty fan or locket chains and are most durable.—New York Sun.

Whets Appetite of Guests. Almira Todd relates that an Erie woman had guests to dinner the other day, and during the progress of the meal she entertained them with a history of the fowl they were devouring. Rowe's Stable.

Western Turfman Will Again Campaign His Charges on Eastern Tracks.

For the third time Charles E. Rowe's well known turf colors, which have been carried in many of the rich events in the east, by such good performers as First Mason, Colonial Girl, Mabel Richardson and other good horses, will be seen on the metropolitan tracks this year.

Rowe is provided with one of the best jockeys of the country in Sewell, who forged to the front during the meeting at the Crescent City track, and, although he has only a small band of two-year-olds to race in his colors, he thinks he will be able to win against some of the good horses.

He has first call on the services of Sewell, and with Mabel Richardson, Colonial Girl and First Mason in condition he thinks he will cut quite a figure in the east. Some of his youngsters have shown preliminary trials in a fashion, which has caused him to nominate them freely in a number of rich stakes.

In the early part of last spring Rowe had a few two-year-olds, but he let all of them go. He had invested quite a sum of money in them, but after he gave them a thorough trying out he came to the conclusion that it would be cheaper to sell them than to pay their feed bills. It turned out that he was a winner on the deal, as none of them, which were sold to western owners, ever amounted to anything and in nearly all their races were placed among the also rans.

Later on he secured one good colt in La Sorciere, which he purchased from G. C. Baker during the Memphis meeting. It is said that he paid something like \$10,000 for this horse. The colt won several races for him during last season and added a few more purses to his owner's bank roll by capturing some of the two-year-old events at the Crescent City track during the early days of the meeting. This season he has invested less than the amount he is said to have paid for La Sorciere in five youngsters, which are all nicely bred and have shown enough speed in their trials to attract the attention of the rail birds.

THE KING OF
BLOOD PURIFIERS

No other remedy has given such perfect satisfaction as a blood purifier and tonic or is so reliable in the cure of blood diseases of every character as S. S. S. It is known as "The King of Blood Purifiers," and the secret of its success and its right to this title is because "IT CURES DISEASE." It is an honest medicine, made entirely of purifying, healing roots, herbs and barks, which are acknowledged to be specifics for diseases arising from an impure or poisoned condition of the blood; and possessing tonic properties that act gently and admirably in the up-building of a run-down, weakened or disordered condition of the system.

One of the greatest points in favor of S. S. S. is that it is the only blood remedy on the market which does not contain a mineral ingredient of some kind to derange or damage the system. It is the one medicine that can be taken with absolute safety by the youngest child or the oldest member of the family, and persons who have allowed their systems to get in such condition that most medicines are repulsive to the stomach will find that S. S. S., while thorough, is gentle and pleasant in its action, and has none of the nauseating effects of the different mineral mixtures and concoctions offered as blood purifiers.

As every part of the body is dependent on the blood for nourishment and strength, it is necessary that this vital fluid be kept free from germs and poisons. So long as it remains uncontaminated we are fortified against disease, and health is assured; but any impurity, humor or poison acts injuriously on the system and affects the general health. Pustular eruptions, pimples, rashes and the different skin affections show that the blood is in a feverish and diseased condition as a result of too much acid or the presence of some irritating humor.

Sores and Ulcers are the result of morbid, unhealthy matter in the blood, and Rheumatism, Catarrh, Scrofula, Contagious Blood Poison etc., are all deep-seated blood disorders that continue to grow worse as long as the poison remains.

But all blood diseases are not acquired; some persons are born with an hereditary taint in the blood and we see this great affliction manifested in many ways. The skin has a waxy, pallid appearance, the eyes are often weak, glands of the neck enlarged, and as the taint has been in the blood since birth the entire health is usually affected.

In all blood troubles S. S. S. has proved itself a perfect remedy and has well earned the title of "KING OF BLOOD PURIFIERS." It goes down into the circulation and removes all poisons, humors, waste or foreign matter, and makes this stream of life pure and health-sustaining. Nothing
